MONTHLY REPORT FOR THE MAP LIBRARY DIVISION

October 1957

1. Map Library requests for all Reference Branch services increased in October over the preceding month. 1,264 map requests were filled, an increase of 189 over September, with CIA and the Department of State primarily responsible for the increase. However, the number of maps needed to fill these requirements was the smallest of any month in 1957. Additional requests included 50 for publications, 143 for Place Name information, and 198 for miscellaneous map reference information. 74 new CIA and NIS maps were incorporated by the Reference Branch into the Reference File of Agency-sponsored maps. There is a continued interest in unclassified maps, on all areas, that are true page size. Maps on Europe and Africa were forwarded to the Assistant Secretary of State for Congressional Relations. These were to be compiled by that office into books for use by the House Subcommittee on Foreign Relations when they go abroad in November.

2. The Air Target Unit forwarded 1,067 sheets, in response to 60 requests for charts and photo mosaics. In addition, 321 items were supplied in answer to 29 calls for TIS publications. Mr. Meade, AFOIN, visited the Air Target Unit. He surveyed the arrangement and extent of the Tactical Targets Material and Air Target Charts, as well as methods of inventory and servicing. He was highly complimentary, stating that the organization of the Unit as a whole was the finest of five similar units in the Washington area.

3. Cataloging of the entire backlog of maps of the USSR has been completed and is now on a current basis.
